Mr. William C. Shelton, Chief
Division of Foreign Labor Conditions
Bureau of Labor Statistics
U. S. Department of Labor
Washington 25, D. C.

Dear Mr. Shelton:

1. The Assistant Director for Basic Intelligence has referred to me for coordination and staff study your letter of November 22, 1963 with its proposed revision of the MIS Standard Instructions for Section 44.

2. Attached for your consideration is a compromise outline that we have drafted which seems to cover MIS requirements. Most of the concepts shown there can be expanded in the outline guide using much of your phrasing. You have commendably accomplished the objective of reducing duplication and have provided much useful further analysis of the coverage for this section.

3. When our other producer of Section 44 has completed his study, we will arrange a meeting on the whole subject.

Sincerely yours,

25X1A9a

Deputy Assistant Director
Basic Intelligence
